How To Use Pay Express Buttons

MSB Pay Express is a quick and easy way to collect secure payments for products directly from a school district's website, email or social media post.

Using MySchoolBucks Pay Express Is Easy:

1 Create A Pay Express Button

OOL

- Log in to your MySchoolBucks account.
- From the Admin Tools page click Manage Stores, then Payment Buttons.
- Click Add and provide the following information:
 - Button Name Enter a title for this button
 - Description (Optional) Enter a product description
 - Store Select the store where the product is located
 - Product Select the product this button should linked to
 - Button Style Select a button color and text
 - Theme Select a theme
 - Script Use the default *Compact* option The *Expanded* option provides additional functionality for web developers. See User Guide for details.
 - Action Choose where you want to direct users when they click on the button
- To insert a button on your website, copy (CTRL + C) the "head" and "body" scripts. To share your product via email or through social media, copy the link.
- Click Create.

2 Add The Button To Your Website

- Open the HTML view of your webpage where the button will be placed.
- OR
- <head> and </head> tags.
 Paste the "body" script between the

• Paste the "head" script between the

- <body> and </body> tags.
- Save or publish the changes.

Add A Link To An Email or Social Post

Use a free URL shortening service like Bitly (www.bitly.com) to make the link smaller:

- For emails, hyperlink a word or image in your email using the product link you copied earlier.
- For social posts, type of a brief message about your product, add an image and paste (CTRL + V) the shortened link before posting.
